Response Indicator

ASES–RI is an Alarm Response Indicator detector. Alarm Latching LED's if the detector are place out of sight location. ASES–RI is compitable with any make 2–wire put after conventional. ASES–RI can also be used with addressable detectors which provides DC output voltage during alarm condition

Specification:

- **Compatibility with all 2 wire detectors.**
- **Dual Red LED indications.**
- **ABS Body.**
- **Wall Mounted / Ceiling mounted**

Technical Specification:

Input Supply	**5–27 VDC**
Current Consumption	**5 mA (approx)**
Housing	**ABS**
Weight	**25 gm. (approx)**
Dimensions (mm)	**70 x 60 x 31 (mm) (approx)**
Colour	**Red/White**
Material	**ABS**
