

AUTOMATIC PANEL WITH P.A SYSTEM

SPECIFICATION:

- Modular design, plug in type solid state
- Tested by ERTL as per IS: 2189
- Expandable up to 2 to 50 zones
- 16X2 line LCD
- Common fire & Fault annunciation window
- Analogue meters to measure AC supply, Battery current and DC operating voltage
- Amplifier wattage can be customized depending upon requirements
- Gooseneck mic attached
- Zone wise selector switch and all switch facility
- Music player attachable facility
- Inbuilt battery charger and battery space
- Mains, AC fail, fuse blown LED indication

Technical Specification

I/P Supply:	230V AC
Standby Supply:	24 V DC
Current Consumption:	Customized
End of Line:	4k7
Detection O/P:	24 VDC
Hooter O/P:	100V AC

Mechanical Specification:

Housing:	MS Sheet
Colour:	Red
Dimension:	Customized
